Subject: Museum of Flight celebrates the 30th anniversary of the first 777 on May 12, 2025, from 11:00AM to 1:00PM

Dear Retiree, Guest, Student,

Can you believe it has been almost 30 years since 777 Cert, ETOPS approval, initial delivery, and initial revenue flight?

Many team members had a great time in Tucson in 2019 with approximately 150 original 777 program “alumni” and current Boeing employees celebrating the retirement of WA001 to the Pima Air and Space Museum. But there were many who were unable to travel to participate in reviving acquaintances and reliving old memories.

So the Museum of Flight is pleased to celebrate the 30th anniversary of the first 777 and is honored to recognize the achievements of those involved in the design and manufacture of this special plane. Those interested will get together in Seattle on May 12, 2025 to greet old friends, share memories, etc., from 11:00am to 1:00pm in the View Lounge at the Museum, which will be set up with round tables and chairs. There will be no program, just an opportunity for informal get together and share stories with others who had similar experiences.

Since the Museum is waiving museum admission fees and room rental fees for this celebration, please consider, if you are willing and able, to show gratitude by contributing to support of the Museum. You may make donations at [Donate | The Museum of Flight](#) or by mailing a check to The Museum of Flight, 9404 East Marginal Way South; Seattle, WA 98108-4097

Please let Ron Robinson know if you plan to attend by sending him an email and indicate either:

- Yes - with number of participants
- Maybe - with potential number of participants, or
- No

In addition, photos may be taken/shared after the event with anyone interested. Also, please pass this on to others you believe may be interested in attending.

Regards,
Dave Anderson
